

# Full speed ahead: electromobility for light electric vehicles

**BOSCH**  
Invented for life

**1**

## **Bosch eBikes**

The Bosch eBikes division develops efficient drive systems for e-bikes, comprising battery, drive unit and on-board computer.

**3**

## **System solutions for light electric vehicles up to 3kW**

The integrated system solutions with in-hub or central motor are a perfect choice for Segways and e-scooters. All system components are perfectly matched to ensure an extraordinary driving experience.

**2**

## **48-volt central drive system for the performance range from 4 to 20 kW**

The easily scalable system can be applied flexibly and permits a unique and safe driving experience with light electric vehicles such as e-scooters or three-wheel e-cargo scooters.
